## MEMORANDUM

**TO:** Sites utilizing Eastern Health-Labrador Grenfell Health Meditech System

**FROM:** Clinical Informatics Team, Public Health Laboratory, & Laboratory Information Team

**DATE:** March 24<sup>th</sup>, 2021

**RE:** Changes to the Order Entry (OE) effective March 31<sup>st</sup>, 2021

The Eastern Health-Labrador Grenfell Health Meditech system is influenced by many factors, consolidation progress, practice changes, issues with functionality and user feedback. As a result, changes to the modules within Meditech will be necessary at times.

The ordering process for COVID-19 testing has been updated provincially as per requests/guidelines.

The COVID19 test has been added to the procedure **RESVIP – RESPIRATORY VIRUS PANEL**, so any testing for Covid will be done when this procedure is ordered. The COVID19 procedure will be inactivated, and you will NOT be able to order COVID19 anymore! Instead order **RESVIP** and the Covid test will be resultated with the RESVIP procedure.

The RESVIP procedure can be ordered by itself to test for the coronavirus, as well as to test for additional respiratory viruses. The current questions that are answered for the COVID19 procedure will now be required for the RESVIP procedure; along with one additional question - Patient Status, see below:
