To: All staff

Re: Rescheduling of Some Second Dose Vaccine Appointments

Last month, the Provincial Government announced that the timeframe between receiving dose one and dose two of the COVID-19 vaccine would be increased to 16 weeks from the original timeframe of 21 - 28 days. This change became effective immediately.

If you received your first dose of COVID-19 vaccine prior to March 3, 2021 and were provided an appointment for your second dose for 21-28 days later, that appointment has been cancelled. Please do not attend the clinic on the date originally provided for your appointment as we are no longer able to accommodate appointments at that time.

You will receive an appointment letter with the date and time of your revised appointment date. This letter will be mailed out to the address listed on your file.

For those who booked and received an appointment since the change was announced, your appointments will proceed as scheduled within the revised 16-week timeframe between appointments.

Judy O'Keefe

Vice President
