

MEMO

TO: COVID-19 Vaccine Providers

FROM: Dr. Janice Fitzgerald, Chief Medical Officer of Health

DATE: June 13, 2022

SUBJECT: Pfizer Comirnaty COVID-19 Vaccine Expiry Date Extensions

The Public Health Agency of Canada (PHAC) has provided an update on expiry dates for certain lot numbers of Pfizer Comirnaty COVID-19 vaccine. Updated expiry dates are noted below:

Product	Lot #	Original Expiry	Extended Expiry	Cap Colour
Pfizer Pediatric	FK5618	2022-02-28	2022-08-31	Orange
Pfizer Pediatric	FL4211	2022-03-30	2022-09-30	Orange
Pfizer (Adult)	FL3210	2022-06-30	2022-09-30	Purple
Pfizer (Adult)	FL3203	2022-06-30	2022-09-30	Purple
Pfizer (Adult)	35035BD	2022-07-31	2022-10-31	Purple
Pfizer (Adult)	FM2952	2022-07-31	2022-10-31	Purple
Pfizer (Adult)	FN7934	2022-07-31	2022-10-31	Purple
Pfizer (Adult)	35040BD	2022-07-31	2022-10-31	Purple
Pfizer (Adult)	FM3444	2022-07-31	2022-10-31	Purple
Pfizer (Adult)	FT7276	2022-08-31	2022-11-30	Purple
Pfizer (Adult)	FT8471	2022-08-31	2022-11-30	Purple
Pfizer (Adult)	FN9501	2022-08-31	2022-11-30	Purple
Pfizer (Adult)	FM7380	2022-08-31	2022-11-30	Purple

Undiluted Pfizer Comirnaty COVID-19 vaccine exposed to +2°C to +8°C will still follow current guidelines and expire 31 days after exposure to +2°C to +8°C or the extended expiry date mentioned above, whichever comes first.

For health care providers using SEINET, expiry date extensions have been updated accordingly.
